ABOUT NCSCG

A Professional Society of Gastroenterologists, Hepatologists, and Advanced Practice Providers

The NCSCG was organized in the mid-1970s, originally as an informal journal club. It was created during a time when the national GI societies focused exclusively on basic science research, almost to the exclusion of matters that were immediately relevant to practicing gastroenterologists.

Thereafter, both formal and informal local societies began to form. The Western Gut Club is often considered the predecessor of the NCSCG in that clinical gastroenterologists from Northern and Southern California would meet once a year in Monterey to discuss common academic and clinical interests. The Southern California Society of Gastroenterology and Endoscopy highlights the attempt to combine what were once considered two very separate domains: gastroenterology and endoscopy. Furthermore, there was the informal journal club, consisting of 10 to 12 members who would meet periodically at each other's homes or the cafeteria of Highland Hospital. Its earliest members included Dr. Stan Goldberg, Dr. Manny Friedman, Dr. Harvey Olsen, Dr. Ralph Bernstein, Dr. Dave Bloom, and Dr. Steve Jacobsohn.

These and other physicians decided to formalize these informal symposia and create a local gastroenterology society that incorporated both gastroenterology and endoscopy while addressing the academic and clinical interests of practicing gastroenterologists in Northern California. The idea of such a society was discussed with prominent local academics, including Dr. Rudi Schmid and Dr. Marvin Sleisenger, who were instrumental in organizing and supporting the society. They helped set up and then served on the board that elected the first board members and councilors, including the first president, Dr. Stan Goldberg.

For a group that has been in existence for over 40 years, it should not come as a surprise that the NCSCG is an organization rich in tradition. Unlike many long-standing organizations, there is no formal written history of the NCSCG and few public opportunities to share the organization's stories. Many new members—and perhaps even some older members—were not aware of how and why this society was started. However, knowing and sharing stories of the people, events, and traditions that have shaped this organization over its 40-year history is essential for ensuring that the NCSCG keeps to its founding principles in the years to come.

GI SYMPOSIUM, JUNE 1-2, 2024

The Northern California Society for Clinical Gastroenterology is devoted to the pursuit of clinical excellence in gastroenterology and hepatology, primarily through continuing medical education. By providing a forum for the exchange of ideas, the NCSCG aims to encourage professional growth, stimulate intellectual curiosity, and improve patient outcomes by expanding access to up-to-date information that is of interest to practitioners.

The NCSCG is pleased to announce our 2024 GI Symposium:

GI Symposium – June 1-2, 2024 – Hyatt Regency Monterey Hotel in Monterey, CA

The GI Symposium is a symposium for physicians, physician assistants, nurse practitioners, and nurses from community practices. The symposium will deliver a comprehensive educational update on the advances and updates in treating patients with GI diseases. The treatment landscape for GI diseases is changing drastically as new treatment and diagnostic modalities are introduced. These changes have a profound impact on clinicians, and the GI Symposium will serve as the event for health care professionals in the region to get the latest information. The NCSCG will assemble a group of expert faculty who will develop the educational content for this course and serve as the speakers. Over 90 health care professionals will attend this symposium.
